DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C.

121:

I. Claims 1-24, 42-46, and 52-56 are drawn to a communication transmitter apparatus and method, classified in class 375, subclass 295.

II. Claims 25-41, 47-51, 57-61 are drawn to a communication receiver apparatus and method, classified in class 375, subclass 316.

2. The inventions of these two groups are distinct, each from the other because of the following reasons:

- The aforesaid inventions are distinct for the reasons given above and acquire a separate status in the art as shown by their distinct classification.
- The search required for claims in Groups I is not required for Group II, and the search required for claims in Groups II is not required for Group I.

3. Because these inventions are distinct for the reason given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
